

THE DAILY APPEAL

GOVERNOR'S LEVEE.—We are requested to announce that Governor Blaisdel will be pleased to receive his friends at his residence this evening.

ATTENTION CURRYMEN.—The Curry Engine Company will hold a meeting this evening, at half past seven o'clock. All the members are requested to be present.

LIFE INSURANCE.—We earnestly call the attention of our readers to this important topic. They will do well to read the advertisement of the Mutual Life of New York. It is reported by the Insurance Commissioner the largest and most successful association in the world. Independent of its protection, its enormous profits are equitably divided each year amongst the policy holders. Many of our leading citizens are amongst its members. Call and see its agents, compare its advantages, and get a policy.

THEATER.—"Under the Gaslight" was again repeated last evening, to a very fine house. We are not authorized to announce that such is the case, but we understand that last night's performance closes the highly entertaining and successful season with which Manager Beatty has favored us. He and his excellent troupe go hence to Virginia City, we believe; and we take great pleasure in saying to our friends there that they may expect some excellent acting and some very pleasing performances at their hands. We wish them complete success.

A CASE OF SMALL-POX IN CARSON.—As has been anticipated, the small-pox has at last made its appearance in this place. A teamster, whose name we have not learned, and who was stopping at "The Mint House" on Carson street, was yesterday discovered to have that disease. The County Commissioners took immediate steps to have him removed from the town, and they have caused a suitable hospital to be fitted up in a building situated north east of the place, well outside the limits. It is to be hoped that all possible precautions will be employed, by the use of disinfectants, and otherwise, to prevent the spread of this fearful disorder.

A GOOD ARRANGEMENT FOR A GOOD DEED OF WORK.—Our bustling teamster, Ned Sweeney, has a lot of men at work digging trenches for the conduits for his water works, which he expects to have in operation before a great while; and we are very glad that two of the county's prisoners have been turned out, by the Commissioners, to help him. We don't exactly fancy the chain-gang business; but we regard it as a very good plan for the county authorities to make these malefactors who are in their custody earn their board. Evil doesers must keep a weather eye open toward Judge Wells if they would keep from compulsory labor.

NEARLY A FEARFUL ACCIDENT.—Senator T. B. Shamp while returning to his home in Washoe on Saturday, met with an accident, which might have proved serious. He was driving a spirited span of bays down a hill side grade, when the hind back strap broke, which caused the buggy to run upon the horses' heels, who taking fright, jumped for the upper side of the grade, which action precipitated our worthy Senator head foremost out on the road, but by good luck and presence of mind he threw his ponderous weight into the breach, and held on to the lines, of course the team was brought up standing. The Senator escaped with a lame shoulder and a few bruises, and is to day up and about his business.

A FIRE.—At half past eleven yesterday morning, a fire was discovered in the rear of the building owned and occupied by citizen Ed. Sweeney. Both fire companies were promptly on hand. The Warren got the first water. Grave and reverend Senators hearing the bell tap took a recess for ten minutes, that they might go forth to battle with the destroying element, or take a drink. At the sound of alarm old recollections of early days and red shirts came fresh to their memory, and with a cry of "Shake her up, boys!" jumped into the thickest of danger. Our fire companies cannot be too highly complimented on this or any other occasion. They are first on hand and the last to leave, so long as a mouldering ember remains. The building was saved but damaged about \$200. Cause of fire, a defective stovepipe.

HAPPY MIGHT.—We are requested by one of your lady readers at Reno, to ask you, in case you publish any more correspondence in relation to the Humboldt mob, if you won't abbreviate some of the hard words, it is so perplexing to spell them out, you know. —C. recent.

An old story meets this case. Said a lady to Doctor Johnson: "I notice a great many naughty words in your dictionary." "Ah, ha!" said the lexicographer, "you have been looking for them, have you?"

O. J. DICKY, the successor of Thad. Stevens in the House, is a spare man, below the medium height, with a good size, well shaped head, and sharp, clear cut, intellectual features. His dark hair and beard are thickly mixed with gray, and his general appearance gives the idea of a close, laborious student, which he has been all his life.

A. C. CLEVELAND.—The gentleman who cast his vote for Mr. Whitman, (Mr. Cleveland of Washoe), refused, for reasons of his own, to take part in the caucus and has chosen to stand alone in the matter. He is answerable for whatever of responsibility he has thus taken upon himself, to his constituents. —Carson Appeal.

In this connection it is but fair to give Cleveland's own reasons for the course he saw fit to pursue. He says, in substance, that he never liked Senator Stewart and never pretended to; that he was not under any pledge to his constituents, either express or implied, to vote for him; that the great anxiety, last summer, of the Union party was not to return Win. M. Stewart to the Senate, but so shape the canvass that Seymour and Blair electors should not cast the vote of Nevada; that in the greater anxiety for the National ticket, Stewart was allowed to manipulate this Legislative aspirant as he pleased, and by doing so put in an appearance which makes plausible the assertion that he is really the people's great favorite. Cleveland thinks the facts do not make good this theory, and further thinks Col. Whitman has more friends in Washoe county than has Senator Stewart. We do not pretend to give any opinion on the subject, except that we believe as much in the sincerity of Cleveland as in either of his associates from this county, and no better men exist than his associates. —Reno Crescent.

Bully for Cleveland!

RETIRING UNITED STATES SENATORS.—A dispatch from Washington, dated December 28, says: On the 4th of March next the terms of the following named Senators expire: Messrs. Bayard, Del.; Buckalew, Pa.; Chandler, Mich.; Conness, Cal.; Dixon, Conn.; Doollittle, Wis.; Edmunds, Vt.; Frelinghuysen, N. J.; Hendricks, Mo.; Hendricks, Ind.; Morgan, N. Y.; Morrill, Me.; Patterson, Tenn.; Ramsey, Minn.; Sprague, R. I.; Stewart, Nev.; Sumner, Mass.; Tipton, Neb.; Van Winkle, West Va.; Wade, Ohio; Welch, Fla.; and White, Md. Of these twenty-two Senators, only three, so far, have been re-elected: Messrs. Edmunds Stewart and Sprague, Republicans. In California, Eugene C. Carner, Democrat, has been elected to succeed Congress, Republican. In Connecticut, ex-Governor Buckingham, Republican, has been elected to succeed Dixon, Democrat. Mr. Patterson, of Tennessee, Democrat, and son-in-law of President Johnson, is to be succeeded by Parson Brownlow, Ohio who will exchange Ben. Wade, Republican, for Judge Allen C. Thurman, Democrat; and Maryland William Pinkney White for William T. Hamilton, both Democrats. The Florida Legislature has elected Alphonso Gilbert to succeed A. S. Welch. The latter gentleman, who has been representing Florida in the Senate for the last six months, has never given up his residence in his own State of Iowa, to which State he will return after the 4th of March, to take charge of the State Agricultural College. He is the only Senator who goes out with this Congress.

Patronize Home Companies.

There is a feeling innate in the breast of every person that awakens pride in the success of home institutions. It associates and identifies itself with our love of country and attachment to our homes; and the benefit that the Pacific Coast derives from a patronage of home institutions is felt in every department of trade, pervades all the different branches of business—enlarges that which is already established, and opens new fields for enterprise and active industry. In patronizing home companies you rely on your own knowledge, and are not compelled to take the say so of interested representatives.

In times of disaster and trouble you naturally seek assistance from your friends; you go to those whom you know best, who can and will assist you—apply this principle, act on every day, to insurance. Is there any country more naturally self-sustaining than the Pacific Coast? Why then destroy the vital principle of prosperity, impoverish the country and compel of hard times, when your misfortune is the result of your own action? Would you deposit your money in a bank on this coast or on Wall street? Would you deposit money in a Life Insurance Company on this coast or one in New York? Would you buy Mission blankets, or do you prefer sending East—you might get a better article?

Would you stop the cultivation of wheat to improve the facilities for the importation of flour? We are all political economists, but that man who Wholly at defiance who exports gold and silver, and imports everything else. What has become of that \$2,000,000 sent East for life insurance last year? Is it bringing you 6 per cent. or 16 per cent? Would \$2,000,000 added to the circulation on this coast make any difference in its prosperity? Would it not increase the amount in circulation here one-fifth, and enable you to cash those outstanding bills which you long since despaired of collecting?

Is not the Pacific Mutual as responsible a company in the world? Is it not as liberal as any? Are not the laws of California as careful of the interests of the policy-holders as those of any other State? Can you name a company which did the same amount of business in the same time that the Pacific Mutual has done? In the stock-holders of the Pacific Mutual get one-half as much for the management of the affairs of the company and the security which their capital affords, as the officers of any purely mutual company which you can come get for their services as officers without furnishing you any security at all? Pacific Mutual Life Insurance Company, J. A. Brumsey, Treasurer, Virginia, General Agent for Nevada, Idaho and Dakota. Clarke & Wells Local Agents, Carson, Nevada. Carson, January 4, 1890.—2a.
